E-Mail Address: _____

Agrees to adopt an Absosengkye Lhasa apso and provide the following necessary elements for the health and wellbeing of said puppy:

This puppy will require good nutrition, fresh water, a dry, safe place to sleep, a complete grooming no less than every 8 weeks or daily grooming should you decide to keep your Lhasa in full coat, at minimum a basic puppy obedience course, and most of all your love. You make this commitment for a lifetime. Should circumstances ever require the placement of your new best friend, you make a promise today to be sure the new home provides all of the above. We make a lifetime commitment to you as the breeder as well. Should you ever need any assistance in problem solving, boarding, Emergency Placement or information related to this breed in general, we will be here to help. Lhasa apsos are an outstandingly loyal breed with amazing intelligence and a wonderful spirit.

Absosengkye Kennel's Guarantees and Policies

1. HEALTH GUARANTEE

If your Lhasa apso dies from Canine Distemper, Infectious Canine Hepatitis, Canine Parvovirus, or Leptospirosis within 14 days of purchase, return veterinarian certificate confirming cause of death, along with AKC registration papers and we will replace your Lhasa apso puppy with another puppy from the next available litter at no charge. We do not recommend Leptospirosis vaccine for any puppy less than 6 months of age unless you have issues with rats, mice or bats. This shot has caused deaths in small breeds. If you choose to give this vaccine it will be at your own risk!

2. GUARANTEE AGAINST CRIPPLING HIP DYSPLASIA

If your Lhasa apso puppy is ever crippled with congenital hip dysplasia, we will replace your Lhasa apso puppy with another puppy at no charge.

3. GUARANTEE AGAINST LIFE THREATENING CONGENITAL DEFECT

If your Lhasa apso puppy develops a genetic or congenital abnormality that is life threatening, we will replace your Lhasa apso puppy with another puppy of your choice at no charge. In case of both of these types of defects it is required that a veterinarian provide medical documents confirming the defect is of a congenital or genetic nature.

4. LIMITATIONS OF GUARANTEE

ALL guarantees apply to the original purchaser of puppy and are non-transferable. No refund will be provided beyond the replacement of puppy by Absosengkye Kennel. Breeder at no time assumes any liability for veterinary expenses or any other expenses incurred for the treatment of any illness whether genetic or otherwise. If said puppy should become ill during the first 7 days of re-homing to purchaser, it must be returned to Absosengkye Kennel immediately {transportation is the sole responsibility of purchaser} if veterinary care is to be sought. Any expenses incurred by the new owner that chooses to use an alternative veterinarian will be the sole responsibility of new owner. Any exception to this agreement must be covered by an additional, written agreement and signed by both the purchaser and Absosengkye Kennel.

_____ Purchaser's Initial

5. All Deposits Are Non-Refundable but can be transferred if necessary.

6. Temperament is not guaranteed. I make myself available to each of you. It is my pleasure to guide you and provide oversight to help you raise a wonderful Lhasa apso. Under no circumstances will I refund or replace the value of a puppy because the temperament is unacceptable to the purchaser. I have been raising Lhasa Apsos since 1996. I have met my share

Absosengkye Kennel – Puppy Adoption Contract

of independent and stubborn puppies / dogs, but I have not met a single one that couldn't be trained. Training must begin on the day you pick up your puppy. If you do not intend to raise your Lhasa Apso with rules, and basic obedience training you will probably run into problems of some kind. The Lhasa Apso is a highly intelligent dog and will be more than happy to teach you how to be its pet. Tolerance for any critical obedience issue will result in a lifetime of problems. The techniques we use are proven to be successful, but the application will be up to you! Good behavior does not happen accidentally. Teach your puppy from day one and you will have a terrific family member when you are done.
